Product Description

DeWalt 20V MAX* Tool Connect™ 5Ah Battery

Power your 20V MAX* tools and take control of your inventory with the 20V MAX* TOOL CONNECT™ 5Ah Batteries. As a part of the TOOL CONNECT™ connected system, this battery helps simplify inventory management by allowing you to remotely monitor the state of charge, enable or disable the battery pack, and control how long the pack can be loaned out. When used with the TOOL CONNECT™ Control or Site Manager companion app, this battery is able to be tracked and managed with ease.

Features:

- LAST SEEN feature will find and locate your battery down to the street address that it was last within range of a Tool Connect™ enabled device
 - Easily and quickly assign battery to jobsites and users on the Tool Connect™ Inventory Manager software, increasing accountability and reducing lost tools
 - Integrated blue LED light indicates when the battery is paired and identifies battery
-
